

HIL BIOMEDICALS

& SYSTEMS LTD • HEALTHCARE INNOVATION

GHANA

BRIDGING THE ENGINEERING-MEDICINE GAP

Connecting hospital clinical workflows, digital health systems, and biomedical equipment across Ghana.

IT

Software Solutions

CLINICAL & OPERATIONS LAYER

- ✓ **EMR:** Electronic Medical Records for clinical charting, diagnoses & notes.
- ✓ **HMIS:** Hospital Management for patient admissions, billing & departments.
- ✓ **RIS & PACS:** Radiology workflows, DICOM imaging & reporting.
- ✓ **LIMS:** Laboratory Information System with automated analyzer interfacing.
- ✓ **HFMS & SFMS:** Hospital & School Facility Management & work orders.
- ✓ **EMS Software:** Biomedical equipment registries, maintenance & downtime tracking.

MED

Medical Equipment

CLINICAL DEVICES & MODALITIES

- ✓ **Diagnostic Imaging:** Digital X-Ray, Color Doppler Ultrasound, CT & MRI systems.
- ✓ **Laboratory Instrumentation:** Hematology, Biochemistry & Electrolyte Analyzers.
- ✓ **Life Support & ICU:** Multi-parameter patient monitors, ventilators & defibrillators.
- ✓ **Surgical & Theater:** C-Arm fluoroscopy, infusion pumps & surgical devices.
- ✓ **Procurement & Supply:** Direct sourcing of certified medical technologies.
- ✓ **Maintenance & Calibration:** Planned preventive maintenance (PPM) & repairs.

Software First — Connected When Needed: Your software manages information and workflows, while our equipment supplies the clinical devices.
